

Session	Date & time	Room	Assigned number	Country	Title	Presenting name	Presenting affiliation
Behavior, nutrition, education & exercise	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE1	Korea (South)	The effect of carbohydrate ratio in ordinary diet to hypoglycemia episode occurrence	Eunsook Kim	nutrition department, Cheju Halla General Hospital <sup>1</sup>
Behavior, nutrition, education & exercise	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE2	Korea (South)	The Effect of Green Whole Grain Mixed Meal to the Body Weight and Waist Circumference in Patients	Han Bo Kyung	Diabetes Center, Chungnam National University Hospital <sup>1</sup>
Behavior, nutrition, education & exercise	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE3	Korea (South)	The relationship of serum ferritin level with sarcopenia in Korean female aged 60 years and older using the	Tae Ho Kim	Division of Endocrinology, Kwandong University College of Medicine <sup>1</sup>
Behavior, nutrition, education & exercise	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE4	Korea (South)	The Effect of Structured Intensive Diabetic Education for the Prevention of Hypoglycemia in Patients	Kyung Mi Shin	Diabetes Care Team, St.Vincent's Hospital Diabetes Center, The Catholic University of Korea <sup>1</sup>
Behavior, nutrition, education & exercise	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE5	Korea (South)	Glycemic effect of sweetener, Sweete GI-0 in peoples with glucose intolerance	Chong Hwa Kim	Department of internal medicine, Sejong general hospital <sup>1</sup>
Behavior, nutrition, education & exercise	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE6	Korea (South)	Effects of exercise education on metabolic risk factors in patients with pre-diabetes	Yeo-Jin Moon	Diabetes Mellitus Center, Kangbuk Samsung Hospital <sup>1</sup>
Behavior, nutrition, education & exercise	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE7	Korea (South)	A study on the satisfaction with the buffet-style nutrition education for T2DM and prediabetes	Yoon Jung Jang	Diabetes Mellitus Center, Kangbuk Samsung Hospital <sup>1</sup>
Behavior, nutrition, education & exercise	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE8	Korea (South)	The Effects of 16-week Combined Exercise on Urinary BDNF and Urinary GH in Children	Hyun Jun Kim	Physical Education, Kyungnam University <sup>1</sup>
Clinical diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE9	Korea (South)	Glycemic variability is related to duration of diabetes rather than cardiovascular risk factors	So Yeon Yoo	Internal Medicine, Jeju National University Hospital <sup>1</sup>
Clinical diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE10	Korea (South)	The relationship between obesity and insulin resistance and insulin secretion according to age	Bu Kyung Kim	Department of Internal Medicine, Kosin University College of Medicine <sup>1</sup>
Clinical diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE11	Korea (South)	Risk of Diabetes Development in Patients Treated with HMG CoA Reductase Inhibitors	Eun Yeong Choe	Internal Medicine, Yonsei University College of Medicine <sup>1</sup>

Session	Date & time	Room	Assigned number	Country	Title	Presenting name	Presenting affiliation
Clinical diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE12	Korea (South)	Comparison of Various Criteria for the Biochemical Diagnosis of Insulinoma	Chang Ho Ahn	Internal Medicine, Seoul National University Hospital <sup>1</sup>
Clinical diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE13	Korea (South)	Validation of the risk assessment score for undiagnosed and incident diabetes in the Korean	Chang Ho Ahn	Internal Medicine, Seoul National University Hospital <sup>1</sup>
Clinical diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE14	Korea (South)	The clinical benefit of vegetarian diet over conventional diabetic diet in type 2 diabetes: a 12-week	Jae-Han Jeon	Department of Internal Medicine, Kyungpook National University School of Medicine, Daegu <sup>1</sup>
Clinical diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE15	Korea (South)	Change of Serum Creatinine after Administration of Contrast Medium for Patients Receiving	Soo Kyoung Kim	Gyeongsang National University School of Medicine <sup>1</sup>
Clinical diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE16	Korea (South)	Endothelial dysfunction measurement using peripheral artery tonometry in patients with type 2	Sun Hee Ko	Division of Endocrinology and Metabolism, Department of Internal Medicine, The Catholic
Clinical diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE17	Korea (South)	Implication of Progranulin and C1q/TNF-Related Protein-3 (CTRP3) on Inflammation and	Hye Jin Yoo	Internal Medicine, College of Medicine, Korea University <sup>1</sup>
Clinical diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE18	Korea (South)	Management of Post Gastrectomy Hypoglycemia : A Case Report	A Ra Jo	Division of Diabetes and Endocrinology, Department of Internal Medicine, Daedong Hospital, Pusan
Clinical diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE19	Korea (South)	Interaction of vitamin D with BMI and insulin resistance in type 2 DM.	Hea Min Yu	Department of Internal Medicine, Eulji University- Hospital, Division of Endocrinology and
Clinical diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE20	Korea (South)	Clinical factors associated with absolute and relative measures of glycemic variability as	Sang-Man Jin	Division of Endocrinology and Metabolism, Department of Medicine, Samsung Medical Center <sup>1</sup>
Clinical diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE21	Korea (South)	A Case Report : Chorea as presenting symptom of severe hyperglycemia in patient with diabetes	Sang Mi Kim	Devision of Endocrinology and metabolism, Department of Internal Medicine, Pusan National
Clinical diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE22	Korea (South)	Comparison of HbA1C variability between sulfonylurea and DPPIV inhibitor.	You Jeong Kim	Department of Internal Medicine, College of Medicine, Inje University, Busan, Korea <sup>1</sup>

Session	Date & time	Room	Assigned number	Country	Title	Presenting name	Presenting affiliation
Clinical diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE23	Korea (South)	Optimal HbA1c Cutoff Value for Fasting Plasma Glucose of 126 mg/dl in Korean Adult Population: The 2011	Jung Min Kim	Department of Internal Medicine, Sanggye Paik Hospital, Cardiovascular and Metabolic Disease Center
Clinical diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE24	Korea (South)	A Case of Human Insulin Allergy Induced by Human Recombinant Insulin	Jung Min Kim	Department of Internal Medicine, Sanggye Paik Hospital, Cardiovascular and Metabolic Disease Center
Clinical diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE25	Korea (South)	Correlation between Body Fat Distribution and insulin resistance in Elderly Type 2 Diabetes	Ga Young Kim	Department of Internal Medicine, School of Medicine, Catholic University of Daegu <sup>1</sup>
Clinical diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE26	Korea (South)	Associations between plasma leptin level and serum C-peptide level in type 2 diabetic patients	Jin Ook Chung	Department of Internal Medicine, Chonnam National University Medical School <sup>1</sup>
Clinical diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE27	Korea (South)	The risk factors for progression of postpartum diabetes mellitus and perinatal complications in Development of diabetes mellitus after hematopoietic stem cell transplantation for childhood leukemia	Hyunji Chun	Department of Internal Medicine, The Catholic University of Korea College of Medicine, Seoul, Korea <sup>1</sup>
Clinical diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE28	Korea (South)	Abnormalities of the blood electrolytes during hypoglycemia in patients with type 2 diabetes	Won Kyoung Cho	Department of Pediatrics, The Catholic University of Korea <sup>1</sup>
Clinical diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE29	Korea (South)	Superior predictive power of 60min glucose level compared to 120min glucose level for future	Mi Yeon Kang	Internal Medicine, Saint Carollo Hospital <sup>1</sup>
Epidemiology / genetics	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE30	Korea (South)	Prevalence and management of dyslipidemia in Korea; Korea National Health and	Jong Dai Kim	Internal Medicine, Kangbuk Samsung Hospital <sup>1</sup>
Epidemiology / genetics	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE31	Korea (South)	Glycaemic and Haemoglobin A1c Thresholds for Detecting Diabetic Retinopathy: The	Eun Roh	Department of Internal Medicine, Seoul National University College of Medicine and Seoul
Epidemiology / genetics	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE32	Korea (South)	Prevalence, awareness, and treatment of hypertension in patients with type 2 diabetes mellitus in Korea:	Sun Hye Ko	Division of Endocrinology and Metabolism, Department of Internal Medicine, The Catholic
Epidemiology / genetics	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE33	Korea (South)		Seung-Hyun Ko	Division of Endocrinology and Metabolism, Department of Internal Medicine, The Catholic

Session	Date & time	Room	Assigned number	Country	Title	Presenting name	Presenting affiliation
Epidemiology / genetics	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE34	Korea (South)	Unprotected Sun Exposure is Associated with Increased Risk of Diabetes in Korean Adults: The Korean National	Jung Hun Ohn	Division of Endocrinology and Metabolism, Department of Internal Medicine, Hallym University
Epidemiology / genetics	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE35	Korea (South)	Prevalence and clinical characteristics of diabetic patients with palpebral ptosis in the general Korean	Seong-Su Moon	Department of Internal Medicine, Dongguk University College of Medicine <sup>1</sup>
Epidemiology / genetics	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE36	Korea (South)	Association of Monocyte Chemoattractant Protein-1(MCP-1) 2518 A/G polymorphism with diabetic	Hyun Jeong Jeon	Internal Medicine , Chungbuk National University <sup>1</sup>
Epidemiology / genetics	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE37	Korea (South)	Identifying Variants of Monogenic Diabetes in Gestational Diabetes Women Using Whole Exome	Chang Ho Ahn	Department of Internal Medicine, Seoul National University College of Medicine <sup>1</sup>
Epidemiology / genetics	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE38	Korea (South)	Genetic locus for Type 2 diabetes identified in the Korea population study demonstrates the	Min Jin Go	Division of Structural and Functional Genomics, Center for Genome Science, Korea National Institute of Health <sup>1</sup>
Epidemiology / genetics	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE39	Korea (South)	Relationship between dietary sodium intake and obesity in pre-diabetes adults	So Young Lim	Department of Food and Nutrition, Chonnam National University, Gwangju, Korea <sup>1</sup>
Epidemiology / genetics	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE40	Korea (South)	Changing Contribution of Family History and Abdominal Obesity in Developing Diabetes	Bo Kyung Koo	Internal medicine, Seoul National University College of Medicine <sup>1</sup>
Insulin signaling / action	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE41	Korea (South)	Skeletal muscle specific OXPHOS defect mice exhibit muscle atrophy but enhanced glucose sensitivity	Hyo Kyun Chung	Research Center for Endocrine & Metabolic Diseases, Chungnam National University School
Insulin signaling / action	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE42	Korea (South)	GLP-1 Improves Palmitate-Induced Insulin Resistance of Human Skeletal Muscle Myotubes through SIRT-1	Ja Young Jeon	Department of Endocrinology and Metabolism, Ajou University School of Medicine, Suwon
Insulin signaling / action	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE43	Korea (South)	The close relationship between insulin resistance and FGF21 resistance in IGT subjects	Ja Young Jeon	Department of Endocrinology and Metabolism, Ajou University School of Medicine, Suwon
Integrated physiology / obesity	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE44	Korea (South)	Altered autophagy gene expression in adipose tissues in women with obesity and type 2 Diabetes	Ji-Min Shin	Department of Physiology, University of Ulsan College of Medicine, Seoul, Korea <sup>1</sup>

Session	Date & time	Room	Assigned number	Country	Title	Presenting name	Presenting affiliation
Integrated physiology / obesity	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE45	Korea (South)	Exendin-4 directly attenuated hepatic steatosis by decreasing LXR-alpha	Da-Hee Oh	Department of Endocrinology and Metabolism, Kyung Hee University Hospital at
Integrated physiology / obesity	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE46	Korea (South)	Cilostazol inhibits insulin-stimulated expression of sterol regulatory binding protein-1c via inhibition of	Yun A. Jung	Division of Endocrinology and Metabolism, Department of Internal Medicine, Keimyung
Integrated physiology / obesity	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE47	Korea (South)	The Analysis of Diabetes Mellitus-related Biomarkers in the Liver specific Knock-Out Mice of Mitogen-	Byung Kil Park	Research Center for Drug Discovery Technology, Korea Research Institute of Chemical Technology <sup>1</sup>
Integrated physiology / obesity	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE48	Korea (South)	Contribution of visceral fat and skeletal muscle to cardiac function; The Korean Genome Epidemiology Study	Juri Park	diabetes and metabolism, Hallym University Kangdong Sacred Heart Hospital <sup>1</sup>
Integrated physiology / obesity	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE49	Korea (South)	Association between low cardiorespiratory fitness and sarcopenia and sarcopenic obesity in Korean adults.	Tae Nyun Kim	Department of Internal Medicine, College of Medicine, Inje University, Busan, Korea <sup>1</sup>
Integrated physiology / obesity	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE50	Korea (South)	Comparisons of serum adipokines according to the groups divided by metabolic health and	Won Seon Jeon	Division of Endocrinology and Metabolism, Kangbuk Samsung Hospital <sup>1</sup>
Integrated physiology / obesity	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE51	Korea (South)	Exendin-4, a glucagon like peptide-1 receptor agonist, improved fat oxidation in muscle	Jin-Seung Choung	College of Pharmacy, Gachon University <sup>1</sup>
Integrated physiology / obesity	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE52	Korea (South)	AMPK activator-mediated inhibition of endoplasmic reticulum stress ameliorates carrageenan-induced insulin	Tae Woo Jung	Division of Endocrinology and Metabolism, Department of Internal Medicine, Korea University
Islet biology / insulin secretion	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE53	Korea (South)	Molecular expression mechanism of lipocalin-2 in pancreatic $\beta$ -cells under exposure to IL-1 $\beta$ and IFN- $\gamma$	Seo-Yoon Chang	Department of Physiology, College of Medicine, The Catholic University of Korea <sup>1</sup>
Islet biology / insulin secretion	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE54	Korea (South)	The Glucotoxicity Protecting Effect of Ezetimibe in Pancreatic Beta Cells via Inhibition of Fatty acid	Jae Ho Cho	Department of Internal Medicine, Yeungnam University College of Medicine, Daegu, Republic
Islet biology / insulin secretion	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE55	Korea (South)	Relationship between fasting insulin/ glucagon ratio and insulin sensitivity or insulin secretion in type 2	You Jeong Kim	Department of Internal Medicine, College of Medicine, Inje University, Busan, Korea <sup>1</sup>

Session	Date & time	Room	Assigned number	Country	Title	Presenting name	Presenting affiliation
Islet biology / insulin secretion	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE56	Korea (South)	Correlation of fasting gastrin level and glycemic control and insulin secretion in type 2 diabetes	You Jeong Kim	Department of Internal Medicine, College of Medicine, Inje University, Busan, Korea <sup>1</sup>
Islet biology / insulin secretion	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 4F	PE57	Korea (South)	Improvement of glucose tolerance in $\beta$ -cell-specific smad-4 knockout mice	Huiying Li	Lee Gil Ya Cancer and Diabetes Institute, Gachon University <sup>1</sup>
Metabolic syndrome & prediabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE58	Korea (South)	Ceramide promotes hepatic lipid Accumulation in ethanol-fed mice or obese diabetic rats	Keon Jae Park	Division of Metabolic Diseases , Korea Centers for Disease Control <sup>1</sup>
Metabolic syndrome & prediabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE59	Korea (South)	Metabolic Syndrome as a predictor of Cardiovascular Disease by Sex	Sunghwan Suh	Division of Endocrinology and Metabolism, Department of Internal Medicine, Dong-A University
Metabolic syndrome & prediabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE60	Korea (South)	Hyperandrogenism is an important phenotype for predicting visceral adiposity and metabolic abnormalities	Do Kyeong Song	Division of Endocrinology & Metabolism, Departmet of Internal Medicine, Ewha Womans University
Metabolic syndrome & prediabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE61	Korea (South)	Relationship of DGLA-related desaturase activities to insulin resistance in Korean boys	Youngshim Choi	Division of Metabolic Diseases, National Institute of Health <sup>1</sup>
Metabolic syndrome & prediabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE62	Korea (South)	Nicotinamide riboside improves hepatic metaflammation accompanied by inhibition	Hee Jae Lee	Department of Food and Nutrition, Chonnam National University <sup>1</sup>
Metabolic syndrome & prediabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE63	Korea (South)	Comparison of serum ferritin with other cardiovascular risk markers in association with	Yang Ho Kang	Internal Medicine, Pusan National University Yangsan Hospital, Pusan National University School of
Metabolic syndrome & prediabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE64	Korea (South)	The relationship between HbA1c and Cardiovascular Disease Risk in Nondiabetic Adults	Jin Hwa Kim	Endocrinology and Metabolism, Chosun University Hospital <sup>1</sup>
Metabolic syndrome & prediabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE65	Korea (South)	Association of nonalcoholic fatty liver disease with body size phenotypes in Korean adults	Ji Hee Yu	Division of Endocrinology and Metabolism, Department of Internal Medicine, Korea University
Macrovascular complications	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE66	Korea (South)	Measurement of insulin resistance in vascular endothelial cells stimulated by angiotensin II	Hye Won Lee	Department of Endocrinology and Metabolism, Pusan National University School of

Session	Date & time	Room	Assigned number	Country	Title	Presenting name	Presenting affiliation
Macrovascular complications	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE67	Korea (South)	The interrelation between central pulse pressure and peripheral pulse pressure in newly diagnosed diabetes	Jeongheon Oh	department of internal medicine, Cheju Halla General Hospital <sup>1</sup>
Macrovascular complications	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE68	Korea (South)	Influence of Initial Glycosylated Hemoglobin level on Clinical Outcomes in Non-diabetic Patients	Hyo Seon Lee	School of Medicine, Pusan National University <sup>1</sup>
Macrovascular complications	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE69	Korea (South)	The Characteristics of Peripheral Artery Disease in Korean Diabetic Patients	Jung Hwan Park	Department of Internal Medicine, College of Medicine, Hanyang University <sup>1</sup>
Macrovascular complications	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE70	Korea (South)	Carotid extra-medial thickness in type 2 diabetics	Min Kyung Lee	endocrinology and metabolism, Kangbuk samsung hospital <sup>1</sup>
Macrovascular complications	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE71	Korea (South)	PWV increases the risk of cerebrovascular stenosis associated with carotid atherosclerosis in type 2	Hee Sun Kwon	Division of Endocrinology and Metabolism, Department of Internal Medicine, The Catholic
Microvascular complications	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE72	Korea (South)	High-normal serum uric acid predicts the development of chronic kidney disease in patients with type 2	Won Jin Kim	Internal Medicine, Pusan National University Hospital <sup>1</sup>
Microvascular complications	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE73	Korea (South)	The effect of exercise on the peripheral nerve in the STZ induced diabetic rats	Cho-Ok Baek	Endocrinology and Metabolism of Internal Medicine, Chonbuk National University Hospital <sup>1</sup>
Microvascular complications	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE74	Korea (South)	Soluble dipeptidyl peptidase-4 activity is associated with decreased renal function in patients	Eun Hee Cho	Department of Internal Medicine, Kangwon National University School of Medicine <sup>1</sup>
Microvascular complications	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE75	Korea (South)	The study about the association between cardiovascular autonomic neuropathy and coronary	Min Jeong Kim	Internal Medicine, Maryknoll Medical Center <sup>1</sup>
Microvascular complications	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE76	Korea (South)	Efficacy of ramosetron in the treatment of female patients with refractory diabetic diarrhea	Mi Ae Cho	Internal Medicine, Dong Rae Bong Seng Hospital <sup>1</sup>
Microvascular complications	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE77	Korea (South)	Advanced glycation end products measured as skin autofluorescence in Korean type 2 diabetic patients	Kyung Ae Lee	Division of Endocrinology and Metabolism, Department of Internal Medicine, Chonbuk National

Session	Date & time	Room	Assigned number	Country	Title	Presenting name	Presenting affiliation
Microvascular complications	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE78	Korea (South)	Alpha-lipoic Acid decreases ICAM-1 and VCAM-1 expression after treatment of angiotensin II on Human	Su Jin Oh	Internal Medicine, The Catholic University of Korea <sup>1</sup>
Microvascular complications	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE79	Korea (South)	Association between subclinical hypothyroidism and diabetic nephropathy in patients with type 2	Eun Sook Kim	Division of Endocrinology, Department of Internal Medicine, Incheon St <sup>1</sup>
Microvascular complications	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE80	Korea (South)	Clinical Characteristics of Normoalbuminuric Patients with Renal Insufficiency in Diabetic Nephropathy	Ho Jin Kim	Department of Internal Medicine, Yeungnam University College of Medicine <sup>1</sup>
Microvascular complications	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE81	Korea (South)	Serum bilirubin concentrations are associated with renal function regardless of	Min Young Chung	Department of Internal Medicine, Chonnam National University Medical School <sup>1</sup>
Therapeutics of diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE82	Korea (South)	Fasting and alpha lipoic acid induce hepatic FGF21 expression via up-regulation of Nur77 and CREBH	Kwi-Hyun Bae	Department of Endocrinology, Kyung Pook National University Hospital <sup>1</sup>
Therapeutics of diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE83	Korea (South)	Administration of HD-0470703, A novel GPR119 agonist, plus sitagliptin produces glucose	So Ra Kim	New Drug Discovery Lab., Hyundai Pharmaceutical Co <sup>1</sup>
Therapeutics of diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE84	Korea (South)	Effect of Corni Fructus water extract on streptozotocin-induced diabetic rats	Yunkyung Han	Oriental Medicine R&D Center, Dongguk University, Gyeongju 780-714, Republic of Korea <sup>1</sup>
Therapeutics of diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE85	Korea (South)	Duration of diabetes and effectiveness of insulin in the management of insulin-naïve Korean patients	Sang Soo Kim	Department of Internal Medicine, Pusan National University Hospital <sup>1</sup>
Therapeutics of diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE86	Korea (South)	Efficacy and tolerability of vildagliptin with metformin in Korean elderly diabetic patients - post hoc analysis	Sungwan Chun	Internal medicine, Soonchunhyang University Cheonan Hospital <sup>1</sup>
Therapeutics of diabetes	Thursday 07 ~ Saturday 09 November, 2013	Convention center lobby 3F	PE87	Korea (South)	Efficacy and Safety of Lobeglitazone Monotherapy in Patients with Type 2 Diabetes Mellitus over 24	Kim Sin Gon	Internal medicine, Korea University Anam Hospital <sup>1</sup>
